Be who you want to be

Headington Rye Oxford is an academically selective British day and boarding school for girls aged 11 to 18.

A wonderful school for a capable girl who'll throw herself wholeheartedly into work and play, enjoying lots of laughs along the way.

Located one mile from Oxford City centre with 23 acre campus which encompasses plenty of green space.

There is plenty on site to entertain and occupy the girls, wherever their interests lie in sports, dance, music, drama, art or in fact anything else!

Oxford is a 10-minute bus ride away, where girls can experience the dreaming spires and the city's cultural and historical offerings.

Headington Rye Oxford is able to sponsor boarding students for student visas, working with Newland Chase Education to give girls a chance to study in the UK.

The teachers really do prioritise the learning and development of their students. They help us to build skills that will aid us outside of their subjects and the classroom. They ensure that we are always pushed and challenged to achieve our best. .

Jessica, L6 2024

There is a strong academic focus, especially in the Sixth Form with girls consistently obtaining top results at A Level and specialist programmes are offered for Medicine and Veterinary Science, Architecture and Law.

At Headington Rye Oxford there is a firm focus on preparing pupils for the future, both in terms of excellent academic outcomes and a comprehensive careers, university application and future-planning programme. We have strong links to Oxford and Oxford Brookes universities with lectures, workshops and masterclasses both on site and at university facilities.

Alongside that is an unparalleled commitment to and investment in pastoral care, with each child treated as an individual and provided with the support they need to succeed in every aspect of their lives.

There is a vast extra-curricular programme with more than 150 clubs and activities to choose from each week.

Our new Creativity & Innovation Centre, the Hive, places an emphasis on cross-curricular learning and the development of the essentially human skills of creativity and problem solving. It is home to Art, Creative Engineering & Design, Fashion Textiles, History of Art, Photography and Sculpture and features a 3D lens suite and 3D printers, photographic studio, lecture theatre and gallery space.

The School's championship-winning Rowing club moved to its first permanent boathouse on the River Thames in 2023. The new site also features a wet dock and boating pontoons. More than 120 HSOBC girls have rowed competitively for team GB.

- Leadership, Adventure & Community
- Sport & Wellbeing

I love being part of something that encourages me to take risks to better myself. This school really allows you to be a better version of yourself.

Zainab, Head of Boarding
2024-2025
