Testimonials from families having online tutoring

“We have found Andrew, and the tuition a really useful and productive addition and appreciate the work Andrew had put into my son’s lessons for Math and English. It has been a great experience for us all, and we would happily offer our recommendation to another parent.”

“Jon has really re-ignited my daughter’s interest in maths, which waxes and wanes throughout the syllabus! I’ve found that her interest in science has also been kindled greatly by just two sessions.”

“I received an offer from St Anne’s to read History at Oxford! I wanted to thank you for guiding me through the process of the HAT. Your help to me has been invaluable and I enjoyed every minute of it. Thank you so much.”

“Thank you both very much for all the time and effort you have spent in helping my daughter prepare for her 13+ Science Common Entrance. By the time she came to take the exam she felt confident and prepared, which is all one could ask for. In light of the time constraint and the mismatch in curriculum, along with all her school activities, I think it a huge achievement that she managed to cover so much in such a short time. She enjoyed both your classes and at no point complained about having to do the extra Science, which shows how much she enjoyed your lessons.”

“James’ insights and guidance gave our daughter a wider and different perspective from that she had gained from her English lessons over the past three years. James was well-prepared for the tutorials and his input was tailor-made to address our daughter's concerns and questions. Above all, James instilled in our daughter the confidence that she could excel in both her English Language and World Literature iGCSEs; this self-belief being particularly important for someone who speaks mostly Swedish at home and therefore views the subjects from a bi-lingual perspective.”

“Oli is a terrific teacher and offers guidance and assistance just at the right place and time whenever needed. He is experienced, thoughtful and patient; always providing the right supporting material to help my children learn and excel. What’s more important is that Oli makes the classes enjoyable with his input, perspective and interesting learning materials. My children especially find him kind and understanding, which we all appreciate greatly. He pays careful attention to details and is always encouraging. I will certainly have my children continue their studies with Oli in the coming years.”
